

Project ORION — Due Diligence Data Room Guide

Structured 4-Tier Due Diligence Navigation Model Across 18 Closing Dossiers

REF: docs/acquisition/presentation/07-BUYER-DATA-ROOM-GUIDE.md
BASELINE COMMIT: d5908d0a0cc2feff99fa02573adb12b8eea33782
CLASSIFICATION: Confidential – Technical Due Diligence

- TIER 1: ORIENTATION (01-03)
- TIER 2: TECHNICAL DEEP-DIVE (04-10)
- TIER 3: SRE & OPS (11-14)
- TIER 4: TRANSACTION & IP (15-18)

TIER 1: EXECUTIVE & ARCHITECTURAL ORIENTATION (INITIAL REVIEW)		
Dossier File	Target Evaluators	Core Due Diligence Contents
01-EXECUTIVE-BRIEF.md	Sponsors, CEOs, M&A Leads	Platform identity, pure software asset positioning, paper-only \$0 risk invariant, high-level tech summary.
02-PRODUCT-OVERVIEW.md	Product Leads, Quants, PMs	5-stage research workflow, strategy catalogue profiles, walk-forward analysis, quality gate hurdles, paper execution.
03-ARCHITECTURE-OVERVIEW.md	CTOs, Architects, Tech Leads	Hexagonal architecture (ports & adapters), 24 routers, 21 domain packages, order execution sequences.

TIER 2: TECHNICAL DEEP-DIVE & HARNESS AUDIT (ENGINEERING LEADERSHIP)		
Dossier File	Target Evaluators	Core Due Diligence Contents
04-TECHNICAL-HANDOVER-GUIDE.md	Onboarding Leads, Developers	Local workstation assembly, virtualenv setup, pytest runner, 4,260 automated test baseline (99.4% coverage).
05-DEPLOYMENT-HANDOVER.md	DevOps Engineers, SRE Leads	Render PaaS deployment, Docker container builds, preDeployCommand hooks, environment secret injection.
06-OPERATIONS-RUNBOOK.md	SRE Teams, SysAdmins	Day-two operations, liveness/readiness health probes (/health/live, /health/ready), log analysis.
07-SECURITY-OVERVIEW.md	CISOs, Security Engineers	Stateless JWT HS256 auth, bcrypt hashing, security headers (HSTS, CSP, X-Frame DENY), 7-role RBAC matrix.
08-BACKUP-RESTORE-RUNBOOK.md	DBAs, Continuity Leads	Physical database restore runbook, documented historical test restore benchmark (~7.2s across 29 tables).
09-API-DOCUMENTATION.md	Integration Engineers	Full REST API catalog across all 24 modular FastAPI routers with typed Pydantic v2 request/response schemas.
10-DATABASE-MIGRATION-GUIDE.md	Data Engineers, Backends	Alembic revision graph, 15 linear migrations managing 29 tables, safe schema evolution patterns.

Project ORION — Due Diligence Data Room Guide (Cont.)

Tier 3 (Operational & Dependency Audit) & Tier 4 (Transaction, IP & Account Transfer)

TIER 3: OPERATIONAL & DEPENDENCY AUDIT (SRE, SECURITY & INFRASTRUCTURE)

Dossier File	Target Evaluators	Core Due Diligence Contents
11-ENVIRONMENT-VARIABLE-REFERENCE.md	DevOps, Security Officers	Complete environment configuration reference, default values, secret categorization, Pydantic Settings.
12-DEPENDENCY-SBOM.md	Compliance Officers, Counsel	Software Bill of Materials (SBOM), 100% commercially permissive licensing (MIT, Apache 2.0, BSD-3-Clause).
13-KNOWN-LIMITATIONS.md	Due Diligence Evaluators	Transparent engineering boundaries: stateless REST polling, single worker loop, paper-only execution model.
14-INFRASTRUCTURE-TOPOLOGY-MAP.md	Cloud Architects, SREs	PaaS architecture on Render, resource tiers (starter API, basic-1gb DB), ~\$14/mo base configuration estimate.

TIER 4: TRANSACTION, IP & ACCOUNT TRANSFER (LEGAL COUNSEL & CORPORATE DEV)

Dossier File	Target Evaluators	Core Due Diligence Contents
15-IP-ASSIGNMENT-CHECKLIST.md	M&A Counsel, IP Attorneys	Proprietary copyright, patent, trademark, and trade secret assignment verification; clean contributor provenance.
16-ACCOUNT-OWNERSHIP-TRANSFER.md	Corporate Development	Third-party vendor account inventory; step-by-step Independent Account Provisioning Path for buyer accounts.
17-DOMAIN-TRANSFER-CHECKLIST.md	IT Operations, NetOps	Custom domain DNS transition runbook, DNS CNAME mapping to Render edge, and SSL/TLS certificate steps.
18-DUE-DILIGENCE-DATA-ROOM-INDEX.md	All Due Diligence Evaluators	Master verification matrix and artifact cross-reference index across all 18 dossiers and repository files.

DATA ROOM ACCESS & NAVIGATION PROTOCOL

All 18 dossiers are maintained directly within the Git repository under docs/acquisition/. Prospective buyers and evaluation teams can review dossiers locally using standard Markdown viewers or through the technical presentation package located under docs/acquisition/presentation/.
